

Comparing Fall Holidays with Everyday Life

Suggestions for use:

1. These pictures can be used to foster discussion about how the Fall Holidays differ from everyday life.
2. They can also be used to play "Concentration," where the compared items make a match.
3. The pictures can be mounted onto a piece of tagboard in random order in two columns. Pieces of yarn are connected to one column containing the "everyday" pictures. The student then attaches the other end of the yarn to the matching "Fall Holiday" pictures.
